About me

Born on 21 April 1998, excited to start every job. I am a person who thinks about how to get better efficiency in every project he does, enjoys dealing with algorithms and problem solving, makes great efforts to deliver every assigned job on time, and enjoys improving himself.

Work Experience

3.5+ Years

- Nuevo Softwarehouse(Otokoç 2.El)** June 2024 - Currently
I am working as frontend developer using agile and scrum methods in the “Otokoç 2.El” project.
Technologies we use: Turbopack, Nextjs, Zustand, Tailwind, Typescript
- SHFT** Oct 2023 - June 2024
I worked with agile and scrum methods on a platform serving property companies. Technologies we use: React, Antd, GraphQL, Typescript, Apollo, Socket.io
- Nono Company** Sep 2022 - Oct 2023
A startup like Appricot is a company that delivers projects to customers according to their requests.
Technologies we use: Nextjs,React-Native, React,Svelte, Scss, Bootstrap, MUI, React, Redux, React Query, Socket.io, SSR, Swr
- Appricot Software Agency** Mar 2022 - Sep 2022
Appricot is a company that provides solutions to startup customers from end-to-end UX. We provided solutions suitable for the designs made here and in accordance with SEO standards. The technologies I use: Next.js, Sass, Bootstrap, MUI, React, Redux, Redux Toolkit, Axios, Socket.io.
- Agesoft Yeni Nesil E-ticaret.** Mar 2021 - Mar 2022
Agesoft is an e-commerce infrastructure that serves dozens of customers. Under the roof of this company, I have carried out the coding of the e-commerce site of more than 20 customers and connecting it to the backend with rest-api.
